

**The good looks are more than skin deep.  
The performance is proven.**

PolyMAX Wainscot® Planks give you a fine, finished appearance with or without painting. Ideally suited for restaurants, institutions and other demanding commercial applications. The reversible planks go up quickly using Parkland's custom designed adhesives. When installed with matching chair rail and base they create wainscot walls that look great from the start and keep on looking good for years to come. The tongue and groove planks can be creatively installed vertically, horizontally or diagonally to achieve your own design. PolyMAX is 100% waterproof and will not support the growth of mold, mildew or bacteria.

# PolyMAX WAINSCOT® PLANKS

The original PolyMax WAINSCOT® features a smooth surface that can be painted to enhance any interior space, and features reversible groove designs. 100% waterproof, mold and mildew resistant and durable beyond compare, PolyMax WAINSCOT is a cost effective way to spruce up any room of your house in no time at all! The panels, with complimentary chair rail and base molding, will not support mold or mildew, and will not harbor bacteria. Maintenance is a snap! Your walls will stand up to being hit with a careless mop, splashed with a dash of ketchup or totally saturated with water.. PolyMax WAINSCOT can also be installed in commercial environments as well! They are a great addition to any office, hotel, or retail establishment when you want to create a beautiful warm environment for your customers! Protect your walls with PolyMax WAINSCOT today!
