

Durable and Insulated Wall Panels for Demanding Environments!

Foam Laminated in Class A or Class C Panel, Fire Ratings per the ASTM E-84

Finish your walls and ceilings in no time at all! INSULEX Wall Panels are created by laminating a sheet of PLAS-TEX® over top of a layer of foam which gives you a solid durable insulating wall panel for the most demanding facilities. INSULEX Wall Panels are the perfect waterproof wall panel for any facility.

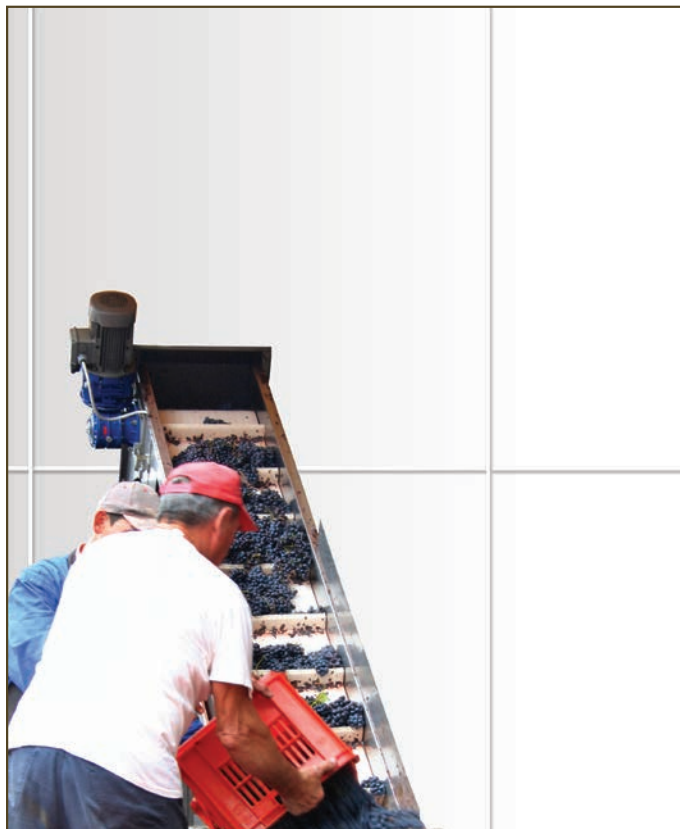

INSULEX is very light weight and can be used not only as a wall panel, but when cut into 2'x2' / 2'x4', as a ceiling tile in a suspended grid system. Available with pebbled texture, smooth, or matte in 4'x8', 4'x10' or 4'x12' sizes in either white or almond.

Attach directly to the studs, on top of pre-stressed concrete, cement block, or over existing walls to finish your walls quickly and easily. INSULEX Wall Panels are fiberglass-free and 100% waterproof!

INSULEX PANELS ARE
**PRACTICAL, FUNCTIONAL
AND VERSATILE.**

FEATURES

- R5-R15 insulation value
- Bridges cracks, grout lines and uneven walls
- Span 24" between studs
- Brightens surroundings
